My latest finds...:-)

[Vaya Bags](#), New York, NY

Is a small, independent company based out of NYC where they hand-make messenger bags & accessories out of recycled materials (i.e. bike tubes, and canvas scraps from sailboat awnings). They are women-owned and operated and all of their products are eco-friendly and vegan. Check them out if you need a new bag!

[American Tuna](#), Bonita, CA

American Tuna Inc. is comprised of Six Fishing Families from San Diego. American Tuna only processes “Pole and Troll” caught Albacore Tuna. They only support the Sustainable harvest method achieved by using a Pole and Line, and catching the fish one at a time. Sustainability is only achieved by committing not to the bottom line, but to the ocean and its future. Their Pole and Troll fisherman take a higher ground and utilize their skills as superior fisherman in harvesting albacore. The majority of commercial tuna fishing throughout the world utilizes methods that harvest tuna in advanced ways that destroy tuna populations.

Their Pole and Troll method has been proven not to damage tuna or bait fish populations, not to catch any other species besides albacore tuna (No Dolphins, Turtles, Sharks, Sea Birds, etc.), and gives the consumer a safe choice by harvesting smaller Mercury Safe Albacore. All of these qualities coupled with the fact that they have 100%
